

Md Saif | Software Developer

saifwork30@gmail.com | +919452235414 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Flutter Developer with 3.5+ years of experience building and delivering production-grade cross-platform applications for Android, iOS, and Web. Skilled in Flutter, Dart, Clean Architecture, and state management using Provider, BLoC, and GetX. Experienced in building responsive UIs, integrating REST APIs, Firebase services, real-time features, payment gateways, and third-party SDKs. Strong backend experience with Golang, enabling end-to-end application development and scalable API integration.

Experience

Software Developer

Prudent Gaming Pvt. Ltd

Oct 2023 – Present

Bengaluru (Remote)

- Architected and delivered 2 production applications, **DealsMaharaja** and **AureoDream**, using a single **Flutter codebase** with a multi-tenant, cross-platform architecture supporting **Android, iOS, and Web**.
- Designed a **dynamic and scalable Flutter architecture** where new brands can be onboarded through configuration changes with zero code duplication, enabling faster deployments and reducing development overhead.
- Implemented **secure client-server communication** using token-based encryption/decryption and integrated application APIs across the Flutter applications.
- Engineered scalable **Golang microservices** for campaign management, slot reel generation, and payment processing, improving real-time backend performance by **40%** and supporting **10K+ concurrent users** with enhanced fault tolerance.

Software Developer (Flutter)

NextGen Samvaad Pvt. Ltd

Jan 2023 – Sep 2023

Varanasi (Onsite)

- Developed and enhanced a **cross-platform e-commerce application using Flutter**, integrating social media features to improve user engagement and overall application functionality.
- Built a **QR code-based product review system** enabling users to scan and rate products, along with QR code generation for merchant onboarding and inventory management.
- Developed **RESTful APIs using Golang and Gin** for a high-traffic e-commerce platform, integrating **Redis** for caching and persistent storage to improve response time by **30%**.

Junior DBA

Cashpor India

Sep 2022 – dec 2022

Varanasi (Onsite)

- Managed and maintained SQL databases, monitoring database performance, data integrity, and availability.
- Diagnosed database issues and optimized queries to improve performance and minimize downtime.

Achievements

EXCELLENCE CERTIFICATE – NEXTGEN SAMVAAD PVT. LTD

[LINK](#)

- Recognized for dedication, commitment, and consistent contribution to team objectives.

Projects

AUREODREAM & DEALSMAHARAJA | MULTI-BRAND FLUTTER PLATFORM

[LIVE](#)

- **Architected and single-handedly developed** two market-specific applications for the **UK and India** from a shared, scalable **Flutter codebase**, supporting **Android, iOS, and Web** with a multi-tenant architecture.
- Built a configuration-driven architecture that enables new brands and market-specific experiences through configuration changes, eliminating code duplication and simplifying future deployments.
- Developed core user journeys including **campaign discovery, ticket purchases, wallet management, and PayPal-based wallet transactions**, with secure API communication, authentication, real-time features, and responsive UI.

FREELANCE | MELOOHA — ASTROLOGY & HOROSCOPE PLATFORM

[LIVE](#)

- Developed and shipped multiple **Flutter screens for Android and iOS**, delivering pixel-perfect UI and consistent cross-platform experiences.
- Built **reusable Flutter UI components** and optimized widget rebuilds to improve application performance and reduce frame drops, resulting in a smoother user experience.

MOCKNODE | REST API MOCKING PLATFORM

[FE GITHUB](#) | [BE GITHUB](#) | [LIVE](#)

- Built a **responsive Flutter Web application** that enables developers to define data schemas and instantly generate fully functional **REST API endpoints** for application testing and prototyping.
- Implemented **real-time API generation, data modeling, and resource relationships**, providing a complete API mocking workflow without requiring a separate backend setup.

MEENGLE | RANDOM AUDIO/VIDEO CALL WEB APPLICATION

[FE GITHUB](#) | [BE GITHUB](#) | [LIVE](#)

- Built a **Flutter Web application** for one-on-one audio and video communication, enabling real-time, low-latency calls using **WebRTC**.
- Developed a **Golang/Gin WebSocket signaling service** for connection establishment and peer coordination between clients.

Educations

MASTER OF COMPUTER APPLICATIONS (MCA)

- Indira Gandhi National Open University (IGNOU) – Distance
- 2024 – Expected 2026

BACHELOR OF COMPUTER APPLICATIONS (BCA)

- Veer Bahadur Singh Purvanchal University, Jaunpur
- 2019 – 2022

Skills

Flutter & Mobile: Flutter, Dart, Flutter Web, Android, iOS, Responsive UI, State Management, Provider, BLoC, GetX, Clean Architecture, SQFlite, Hive.

Application Development: REST APIs, API Integration, WebSocket, WebRTC, Firebase, Authentication, Push Notifications, Crashlytics, Payment Gateway Integration, Performance Optimization.

Backend, Database & Tools: Golang, REST APIs, Firebase, MongoDB, Redis, Kafka, GCP, GitHub, Postman, Grafana, PostHog.
